Section 5.02 of the City Charter requires all City employees to be bona fide residents of the City of Milwaukee. The City Service Commission has enforcement responsibility of this provision, and has developed a Residency Policy which applies to all employees. Exceptions to this policy can only be granted by formal action of the Milwaukee City Service Commission. Residency is defined as where you actually live. Owning or renting property, or maintaining space at the residence of a friend or relative within the City of Milwaukee while actually residing elsewhere DOES NOT constitute residency within the meaning of the charter. In cases in which dual (or multiple) residency is an issue, the Commission is authorized to make a determination as to which location constitutes the actual residence. The Dual Residency Policy provides examples of factors which may be considered in determining actual residence.

Both policies are available on the Department of Employee Relations website at [www.city.milwaukee.gov/der/policies](http://www.city.milwaukee.gov/der/policies)

Currently, the City Service Commission allows a period of six months beginning on the date of hire for employees who are new to the City Service to establish residency within the City limits.

Employees who fail to comply with the residency ordinance will be subject to termination or discharge from employment.

If you have any questions as to whether your current living arrangement may be in violation of the residency requirement, you should contact your department, bureau or division head immediately. Questions about the residency requirements, or dual residency should be directed to the employee's immediate supervisor or the Department of Employee Relations.
